

## How do I turn on JavaScript in my browser?

Browsers that support JavaScript® allow you to take advantage of advanced features on our website, including drop-down menus for easy navigation. If you have problems viewing the drop-down menus, you probably have JavaScript turned off in your browser, or your browser doesn't support JavaScript.

To turn on JavaScript, follow the directions below:

- [Safari™ 3.x \(Macintosh®\)](#)

For further assistance, refer to your browser's help content.

### **Safari 3.x (Macintosh)**

1. Select **Preferences...** from the **Safari** drop-down menu.
2. Select the **Security** section from the options at the top of the pop-up page.
3. Under "Web Content," check the "Enable plug-ins," "Enable Java" and "Enable JavaScript" boxes.
4. Close the **Security** window.
